Dear Mr. Irvine,-

I beg to enclose you herewith copies of letters dated August 3rd, addressed to Senhor J. C.de Miranda e Horta, Director Geral dos Correios, which are self-explanatory. Am sorry to say that I neglected to send you these copies at the time I wrote the letters.

Sincerely yours,

August 16, 1907

My dear Mr. Irvine,-

I am sending you herewith, under separate cover, by mail, thirty specimens of our multi color work, tint border for securities, which can be used for bonds, three specimens of each, on planchette paper, marked:

1 A, 1 B, 1 C, 1 D, 1 E,
2 A, 2 B, 2 C, 2 D, 2 E.

these numbers to designate the style and color of border.

You might try to introduce this as a novelty in connection with the new issue of the CITY OF RIO Bonds.

Yours sincerely,

The American Bank Note Co.

Dear Sirs,

By this steamer I am sending you two registered letters, one containing orders from Minas with photos etc. etc. and request for an offer of stamps from the Prefeitura, and the other the order from the treasury for 200$ and 500$ mil reis notes.

The Minas order calls for stamps to be here in time for use by January first. This seems a short time to me so you will please cable if it cannot be done so that I can take the necessary steps at once. I do not know whether Mr. Claudet had any verbal understanding on this point or not. In my letter to Mr. Penna I have explained that the time is very short and also pointed out that a great deal of delay has occurred which was not our fault. At the Treasury they told me that the prices of the notes(200$ and 500$) seems very high in proportion to the others. They only noticed it as an after thought but seemed a little sore so I promised to bring the matter to your attention. If you can make some reduction it might be wise to do so, particularly as they have approached me about a very large order for ~~several~~ revenue stamps. There is no doubt that counter-feiting has been carried on to an extent not known by the public and I think we can get this order. At all events I am to go to the Treasury to-morrow for all details and I will send everything

on by next mail. I am sorry the Minas order is for lithographed stamps and not engraved. I am sorry it has taken so much time to get all these matters into shape but it has been due to no fault of mine.

Mr. Penna in a private letter to Mr. Claudet has broached the subject of working for you for orders in other States and I think it a good plan especially as he will be here for the Exposition next year and will thus have opportunities to talk with his various political friends from all over Brazil.

Yours very truly,

Dear Sir:

In compliance with your late request to look over the enclosed proof of your engraved Portuguese letter, we beg to state that we can find no records of having made this translation for you and that the translation as regards style of construction is not what we would wish it to be, especially when it is to be reproduced by the latest improvements in the art of printing and fine workmenship for which your Company is noted and that some parts of this translation is defective and we have made the absolutely necessary changes which the English requires and noted them on the proof, but we have assumed no liberties with the style of construction which we would compare with the English in the N.Y. Journal which is no doubt alright in its place, and conveys the proper idea but such kind of English would certainly look a little odd were it to be printed between the leaves of one of our high class literary magazines. To further illustrate it would certainly be incongruous to place a cheap engraving in a very expensive picture frame with gilt borders and a shadow frame, and any language composition crude in its construction is quite notceable as being out of place when reproduced by the latest refinements of the printer's art.

Your Portuguese translation is neither very bad nor very good (with the omissions excepted, which we have supplied) it is on

the border line, and were it to be used as a general commercial letter, printed by ordinary methods, we would withdraw the above remarks and say that it was suited to its purpose

not received

Dear Sirs,

I called at the post office to-day to see if the designs for the new (exposition) postage stamps were ready. They are not, however, and we shall have to wait patiently. When you were here they were talking about <u>one</u> design but there will be <u>two</u>.

I asked them for specimens of their department paper and envelopes and they gave me the enclosed. The idea of better stuff was received with favour but they tell me that nothing can be done at the moment as the Imprensa Nacional has a monopoly of the printing for the various departments. But efforts are being made to change all this and if you will send samples and prices we will bide our time and see what we can do. Once we can get one department to make the change the others will be very likely to follow suit.

I went to the Treasury to-day, by apointment, to get a note of the revenue stamps but they had not yet prepared it. I will send it as soon as I can.

On their order for 200$. and 500$. notes they said that the size is to be about the same as those in actual use. As you may not have a note of these dimensions I enclose paper showing the size.

Yours very truly,

Mr. L. C. Irvine,
Rua d'Alfandega 37,
Rio de Janeiro, Brazil

Dear Sir:-

We have your favors of August 2nd and 19th.

POST OFFICE:

We note that you are following up the matter of Exposition Stamps of 1908 very closely, and that there are to be two designs as was first contemplated, instead of one.

You will understand, of course, that there is no time to lose on this stamp order, which must be delivered in Rio at the latest in April 1908, for distribution all through the States of Brazil. By the time we get the approved model in our hands it will be January. If you can impress this upon Mr. Horta we do not doubt but he will do everything in his power to press the work of the artist who has charge of these models.

POST OFFICE STATIONERY:

The samples which you say you inclose, have not been received. Evidently this has been overlooked by your mailing

clerk, and we cannot give you a price on this class of work without knowing exactly the sizes and various styles that are being used. If you will interview the Postmaster again on this subject, and obtain from him specimens of what they are using, and give us an idea as to the quantities desired, we will give you prices by return mail, with specimens.

BANK NOTES:

We duly received the dimensions of the 200 and 500 Milreis, now in circulation, and compared them with the models that we are engraving. We find that our sizes are a trifle wider, but the length is the same. This we presume is all right.

MATCH STAMP:

We inclose herewith as per request made in your letter of August 19th, model that we propose for the Federal Government for the Match Revenue Stamp, with prices for furnishing five hundred million.

First: All steel engraved stamps, to measure 16 x 27 milimetres, rouletted both ways, gummed, in sheets of either 50 or 60, with wax paper between each sheet, printed in whatever color may be selected, at the rate of 18 cents per thousand stamps. This price includes the engraving of the plates.

Second: For an all lithographed stamp, delivered in sheets of 100 stamps, 10 cents per thousand stamps.

Regarding the steel engraved stamp, we give you in confidence the rock bottom price of 15 cents per thousand

stamps, which we want you to use only if you feel that you have to do so. You are to use your own judgment in this matter.

As to a lithographed stamp, you know our views in this matter. We do not doubt that if you use a great deal of persuasion, the Minister of Finance can be induced to use an all steel engraved Revenue stamp, which as you say, will give less chance for counterfeiting, and will therefore mean a great saving in the long run.

We have made our prices very low so as to enable you to secure the order.

The prices given above include boxing, insurance and freight to Rio Janeiro.

Trusting that we may have the pleasure of hearing from you that you have secured the order, we remain,

Yours very truly,

JC.S. Vice-President.

Dear Sir,

I have to acknowledge receipt of your valued favour of August 2d. and also to confirm cables exchanged as per enclosed copies. I have been delayed in getting ready the list of names of those to whom you are to send calendars and circulars, but will send it forward in a few days.

I have duly communicated to Mr. Penna that you hope to ship the stamps by December 7th. which ought to bring them to Rio at just the right time. Mr Penna has written to me that the State of Minas has decided to order stamped paper (about 300.000 sheets) for use in the courts. This will call for 300 reis stamp ~~and~~ at the top of each sheet of the same design, he thinks, as those being executed now. I have written asking for sample of paper, etc. etc. so that there shall be no misunderstanding. As I have not yet received any answer I am sending you sample of the kind of paper used here for this purpose, from which you can get up samples to send me and from which I can arrange the order. Such samples could not get here earlier than the end of October and Mr. Penna tells me that this paper is also wanted by the end of the year. This will hardly be sufficient time.

received 9/9/07 12 3/4 x 8 7/8 folded

I have communicated to the Treasury your information about the execution of the Rs.10$000 order and also that you would engrave the 200$000 and 500$000 notes, as requested, of the same size as the models. I asked the Minister for confirmation in writing but, as yet, it has not come.

General Aguiar has not yet given me an answer about the stamps. The Post-Office has not yet received the designs for the Exposition stamps. I have sent forward the data requested for advertising in the newspapers and you have doubtless received the same since the date of your letter. I am diligently watching the various items of business, but you know how slow some of these matters are. The public departments are very slow and one can only await their good pleasure. They generally make up at the last moment and then want everything done with a rush.

Thanking you very much for your expressions of personal good wishes which I most heartly reciprocate -

I am
very truly yours,

Dear Sir,-

We have to acknowledge receipt of your favor of 3rd instant.

STAMPED PAPER - STATE OF MINAS 300 REIS We have prepared a model of Stamped Paper, which we are sending under separate cover by registered mail, and will ask you to forward it to Mr. Penna for the approbation of the Secretary of the State of Minas. We quote you price for furnishing the same in lots of 300,000, size and ruling as per specimen sent us in your letter of 3rd Sept.:

(1) Steel Engraved - - - - - - - - - - -£ 1440: 0: 0.

(2) Lithographed - - - - - - - - - - - - £ 1000: 0: 0.

to be printed on Sterling Ledger paper as per sample herewith, but thickness to be the same as sample of the Record Ledger which we also enclose. Size of the sheet 325 centimetres by 220 Centimetres when folded and trimmed.

Mr. Penna in his former letter stated that he would like to have this paper with a watermark of "Estado de Minas Gerais". To have this done will involve an extra charge of £ 22. (in addition to the prices quoted above), boxing, freight, insurance and Consular fee to be additional. Mr. Penna's commission is covered in this price.

As you state in your letter, this model will reach you in about three weeks, and cabling us as soon as the model is approved, it will be the end of October before we could proceed with the engraving; so we could not possibly have this stationery ready in time to reach Rio by the end of December, but could surely promise a portion of the order by the following steamer, which will reach Rio by the end of January.

STATIONERY We are sending you per S.S. "Tennyson" one box No. 1, containing the following stationery and sample books:

500 Letter Heads - 1st page
1000 " " - 2nd "

525 Embossed Envelopes, small size
275 " " large "

1000 Steel Engraved Cards for yourself
1001 " " Circulars
1000 Envelopes to match circulars

12 Sample Books of Stamps
1 General Specimen Book

You will note that one of the sample books of stamps is marked with your name; this is for your own use. You will please make use of them as you think best - according to what Mr. Penna might suggest.

CIRCULARS In regard to the engraved circulars, we think best for you to have them addressed from your office, placing thereon the date on which you mail them.

ADVERTISING This matter is being considered now by our Advertising Department. We will advise you as to the decision.

J. H. ADERNE - Secretario do Director dos Correios - CARDS

We mailed direct to this gentleman 500 each, personal and business cards. Kindly call on him and state that it is our pleasure to have him accept the same with our compliments. It was our intention that these should have been presented by yourself in the name of,the Company; but by some mistake in our shipping department they were mailed direct, which we very much regret.

CITY OF RIO BONDS When this matter comes up, we would suggest that you offer, as an additional security, the use of planchette paper in the printing of these bonds. This we think might help you in securing the order. You will find sample of that paperin the general specimen book that we send you, which you will notice has a general index of all the samples, stating

whether steel engraved or lithographed, for your guidance.

Regarding the printing of steel engraved or lithographed work, you know our views, and we would ask you to especially caution Mr. Penna to have recourse to lithographed work only in case he sees there is no way out of it. Also tell him that considering the size of the paper on which these 300 Reis stamps are to be printed, we thought well to engrave it much larger than the other revenue stamps.
As to colors in which it is to be printed, we will give him whatever color he may select.

CONVERTIBLE NOTES When these notesof Waterlow & Sons, and the Dutch firm are ready, we would very much like to have you send us one of each; and you may draw on the Company for the amount, which will be reimbursed to you at once. The denominations of these notes are as follows: 10, 20, 50, 100, 200 and 500 Reis.

REVENUE STAMPS FOR FEDERAL GOVERNMENT Please do not forget, in case the matter of wine and tobacco and other revenue stamps comes up, that Mr. David Campista has in his possession a card showing six different models. If any special design different from the one shown on this model, is required, we shall be

very glad to make them up in accordance with instructions.

Awaiting the pleasure of hearing from you,

we remain,

Yours respectfully,

Vice Prest.

Dear Sirs,

As I find that your cable code does not give much latitude as to general phrases, although it is very good as concerns technical matters, I think it would be a good plan to use the Western Union Code in conjunction with it.

I have the Western Union Codeand it is the best general code I have seen yet and I do not think that any confusion need result from combining it with yours. In any cases where there might be doubt you could use the word "Wunioncod", which would mean, "Translate the following by the Western Union Code". If you will accept a further suggestion you could easily adopt all of your code business to the Western Union Code, which only begins with the word "Beerkar". You could easily adopt your own code so as to be included in the alphabet up to that point and there could then be no possible confusion as to the use of the Western Union Code. The two codes thus combined would make a splendid code for your business and it could be arranged at not very great expense. Privacy also would be quite guaranteed.

Another item of expense can be saved if, instead of signing all your telegrams as you do "Banknote", you will allow me to register the address "Banknote" here in Rio.

This will cost 25$000 per calendar year or part thereof.

If you agree to my suggestions in the above matters - except the permanent adaptation of your code to the Western Union Code which can be taken up later - Will you please cable me the following words:

"Aymoré" It is understood that W.Union Code may be used in conjunction with our private code.

Dear Sirs:

I have received your favors of August 14 (2), 16, 29, and September 3, with enclosures as stated your cables as per copies herewith, together with samples as mentioned, and a copy of the Imprint for all of which I thank you.

The 'Dummy' for the shares of the Bank of Brazil on the back reads 'acciones' instead of the Portuguese 'acções', a slight mistake which I noted before handing it to the Bank and mention it to you now, so as to avoid the possibility of a mistake later on. The Secretary of the Bank, Mr Mesquita asked me to wait for a few days as the matter could not be taken up immediately and I feel pretty sure that nothing will be done just yet. However, I will keep the matter well in view and do all I can to get results as soon as possible. They wanted to know when the 'Letras a premio' would be ready, but I was unable to inform them not having received any word from you. At the Post office they declined to take up the matter of the return stamps just now as they express themselves as unready for anything practical at the moment. It is a delicate subject for me to approach too insistently as Brazil is not acting within the spirit of her agreement with the Postal Union in regard to rates for stamps. The fluctuations of Brazilian exchange were

the excuse for being unable to adjust postage charges on an exact basis, but we now have steady - practically fixed - exchange and the charge on foreign letters is equal to 4 1/2 pence English on 15 grammes of first class matter.

If Brazil supplies return stamps, which can be bought in other countries at practically half price, it will lead to a business which will really deprive Brazil of most of the over-charge and they probably do not wish to do that. But I will follow this up.

Mr Bernardelli has not yet furnished the designs but I will keep on reminding the Post Office Department. They inform me that they do not need any stamps for next year just yet. A good many of the Brazilian manufactured stamps are still in existence apparently as they seem to be selling most of those just now. I think they are not making any more - only using up old stock.

I have duly advised the Treasury of the various shipments of 10 mil reis notes and they appear to be satisfied with the execution of the order as regards time. The 'BYRON' shipment has arrived but unfortunately the box is not yet out of the Custom House so that the Minister has not yet seen the notes and I have not been able to reply to your telegram asking whether he is pleased. But the officials at the Treasury tell me that there is not likely to be any doubt on this score.

They have asked me if it will not be possible to ship boxes of notes in a more satisfactory manner. At present the boxes seem to come as general cargo and are dumped into the lighter all mixed

up with other stuff, as in the present case, so that the box will only be discovered when all the lighters are discharged. They told me that the French Company has some special arrangement with the steamship companies by which boxes of notes are kept separate and are promptly delivered to the Government on arrival here. I spoke to the 'Byron' agents about this and they said you could easily make a special arrangement with the steam-ship agents in New York, If a box of notes should be lost it would at once cause the whole issue of that particular note to be cancelled and there might be some nice questions of responsibility to be determined with a pretty good chance of the Company's having to stand the loss.

This, to my mind, seems to call for careful consideration and, in any case, the Treasury is so anxious to get the notes that a good deal of annoyance has been caused by the inability to lay hands on the box at a moment's notice.

I have asked permission to waive seeing the proofs of the 200$ and 500$ notes in order to avoid delay.

Mr Almeida has not yet been able to get the Minister's attention to this matter. I have gone to the Treasury a great many times on this errand but, as yet, without result.

Mr Almeida seems to favour having you submit the proofs to the Brazilian Ambassador or the Consul in New York, and this would, in truth, be better, as it would relieve the Company of some responsibility. As soon as I can I will cable to you, I have informed the Minister of the prices of the notes for which he holds models, as you request.

Some new counterfeiting of revenue stamps has just been discovered in Rio almost under the shadow of the Casa da Moeda and there is a suspicion that the lithographic plates used were from that honoured establishment.

All this is very helpful to our business and I eagerly await the models for the match stamps for I feel confident we are going to get some good orders.

Both of our stamp offers are still with the Mayor of Rio for the city stamps and I am trying to get some of this business closed but it is very difficult, as General Aguiar has so much to do at present. However, he has shown himself very friendly, indeed, and I think he will do something with us.

All these matters require a great deal of time as Mr Claudet can inform you. It all means a great deal of waiting and lost time. Generally after long and useless delays they wake up and then want the business put through by us in an impossibly short space of time. However, with patience and perseverance I am sure we shall get our fair share of the business and a <u>fair</u> share in this case means a good deal.

About the Municipal Bonds, I cannot yet say. I am working and will approach General Aguiar on this subject again to-morrow. No recent mention has been made of the loan and I am not sure whether my surmise is correct about there being some arrangement in this connection with the Light & Power people. What is certain is that the City must borrow the money somewhere and a straight out banking loan would be very difficult at this time.

I sent Dr. Penna the samples as directed. I have written to Dr. Penna in reference to the various matters we are treating with him and to-day have a short note from him saying that he is travelling about Minas on business of the approaching Exposition here next year. As soon as he gets back to Bello Horizonte he will write me and besides hopes to be in Rio again shortly. As soon as I can I will write you about the Minas business.

Has the Company yet decided whether it will make an exhibit in the Rio Exposition ? It will soon be necessary for me to know what you intend doing . Also, I should like to know as soon as possible about advertising in the Rio papers. not yet rec'd

Bu this mail I am sending you a NOTICIA which contains a very nice allusion to the American Bank notes. The reference is only just but it was very nice of them all the same.

Under separate cover I have sent you a list of names to which circulars are to be sent. It is rather long and contains pretty much all that could be found in the City Directory by way of possible custom for us .

Dear Sir,-

It is with great pleasure that I take the opportunity at this time, of wishing you the best compliments of the season, and all that is essential to a Merry Christmas and a Happy New Year.

Incidently, I enclose a draft for £100, which I trust you will accept in the name of the Company, as a mark of appreciation for your efforts and results.

We are all very much pleased with the way you have handled our business and trust, from the beginning which you have been able to make in the few months you have been connected with us, that we will be able to secure all of the revenue work as well as the bank notes for the Brazilian Republic. As you will learn from regular advices going forward by this steamer, we are making the first shipment of the Match Stamps and we hope they will prove as efficient an advertisement as the ten Milreis notes did when put in circulation.

I am very glad that you have determin to make an exhibit at the Exposition next year and I await your further pleasure in the matter.

I note that you will take up the advertising in the Rio papers and I am more and more convinced that this will be well worth while. The papers in which we advertise will say a good word for us occasionally and thus foster the strong public sentiment that already exists in our favour . On the contrary, if we do not advertise they may do the opposite on occasion. I am sure it is good policy to stand well with them

impressos nesse estabelecimento os titulos substitutivos das apolices da divida publica da União, extraviados, ns. 233 658 a 233.662, do valor nominal de 1:000$000 cada uma, do juro de 5%, emittidas em 1871 e averbadas em nome de D. Maria Carolina de Jesus e Joaquim Carneiro de Mesquita.

—Sr. delegado fiscal no Amazonas:

N. 186—Declaro-vos, para os devidos fins, e em confirmação do telegramma que em 7 do corrente, dirigi á Alfandega dessa cidade, que o Sr. Ministro, attendendo ao que solicitou o Ministerio da Industria, Viação e Obras Publicas, em aviso n. 54, de 6 deste mesmo mez, resolveu, por acto da mesma data, autorizar o despacho, livre de direitos, nos termos do decreto n. 6.597, de 8 de agosto ultimo, dos materiaes vindos no vapor *Maranhense* com destino á Estrada de Ferro Madeira e Mamoré, e cuja relação ahi vos será apresentada, devidamente visada pelo respectivo engenheiro fiscal, ou, na falta deste, por identico funccionario junto á Commissão do Melhoramento do Porto desse Estado.

—Sr. delegado fiscal na Bahia:

N. 259 — Communico-vos, para os devidos effeitos, que o Sr. Ministro, por despacho de 11 do corrente, resolveu pôr á disposição do Ministerio da Marinha, conforme foi por este requisitado em aviso n. 868, de 20 de agosto ultimo, a casa situada na area do extincto Arsenal de Marinha desse Estado.

—Sr. delegado fiscal no Maranhão.

N. 155 — Declaro-vos, para os devidos effeitos, que o Sr. Ministro, tendo presente o officio n. 174, de 5 de outubro ultimo, em que consultaes si póde ser prorogado o prazo de 60 dias, marcado na circular n. 29, de 9 de setembro ultimo, para os agentes fiscaes dos impostos de consumo do imposto de transporte e do de producção e descarga de sal apresentarem uma relação dos autos de infracção lavrados pelos mesmos fiscaes, resolveu, por despacho de 5 do corrente, determinar-vos o estricto cumprimento da circular citada.

— Sr. delegado fiscal na Parahyba do Norte:

N. 88 — Declaro-vos, para os devidos effeitos, que o Sr. Ministro, tendo presente o recurso encaminhado com o officio dessa delegacia n. 36, de 31 de julho ultimo e interposto por Castro Irmão & Comp. do acto pelo qual a Alfandega desse Estado mandou classificar como—bordados, para pagamento da taxa de 5$ do art. 473 da Tarifa, com a sobre taxa de 40 %, da nota 55ª, os tecidos constantes das amostras ns. 1 e 2, que vieram annexas ao citado officio n. 36, resolveu, por despacho de 26 de outubro proximo findo proferido em sessão do Conselho de Fazenda, de accôrdo com o parecer do mesmo conselho, dar provimento ao alludido recurso, afim de ser o tecido da amostra n. 2 classificado como simplesmente lavrado — e os demais como — cassa de algodão de salpicos — todos incluidos no art. 473 da Tarifa, conforme opinou a Alfandega do Rio de Janeiro, ouvida a respeito.

— Sr. delegado fiscal em Pernambuco:

N. 360 — Declaro-vos, para os devidos effeitos, que o Sr. Ministro, attendendo ao que requereu a Companhia de Luz e Força pelo Alcool, na petição transmittida com o vosso officio n. 225, de 9 de julho ultimo, resolveu, por acto de 9 do corrente, autorizar o despacho livre de direitos, nos termos do art. 3º, alinea 13ª, n. 15, da vigente lei orçamentaria da Receita, das chaminés, globos, boccaes e camisas incandescentes, em porporção correspondente ao numero de lampadas constante da relação que acompanhou a ordem desta directoria, n. 75 de 16 de março do corrente anno.

— Sr. delegado fiscel no Piauhy:

N. 73 — Remetto-vos, para os devidos fins o incluso decreto de 7 do corrente que nomêa Amadeu Cesar Burlamaqui para o logar de 2º escripturario dessa repartição.

— Sr. delegado fiscal no Rio Grande do Sul:

N. 421 — Recommendo-vos, de accôrdo com o despacho do Sr. Ministro, de 8 do corrente, proferido sobre o telegramma do governador desse Estado do dia anterior, que providencieis no sentido de ser a lancha a vapor *Mirim*, destinada á fiscalização da lagôa do mesmo nome, entregue á Mesa de Rendas Federaes de Santa Victoria.

Confirmo, assim, meu telegramma de 9.

— Sr. delegado fiscal em S. Paulo:

N. 659—Em resposta ao vosso officio n. 624, de 17 de outubro proximo findo, recommendo-vos, de accôrdo com o despacho do Sr. Ministro, de 5 do corrente, providencieis no sentido de ser dispensado Francisco Matheus da Costa Ferreira do logar de encarregado da arrecadação das rendas federaes em Ubatuba, nesse Estado, e bem assim para que tenha immediato cumprimento a ordem desta directoria n. 628, de 25 do citado mez de outubro, relativamente á tomada das contas daquelle responsavel e á annexação do alludido municipio á collectoria mais proxima.

— Sr. inspector da Alfandega de Santos:

N. 660—Declaro-vos, para os devidos fins, em confirmação ao meu telegramma de 9 do corrente, que o Sr. Ministro, por acto do dia anterior, proferido sobre o vosso telegramma de 7 deste mesmo mez, resolveu autorizar-vos a remetter directamente ao Thesouro, pelo Correio, em registro, sem valor declarado, os vales ouro emittidos por essa alfandega; ficando desse modo resolvida a consulta que fizestes no referido telegramma, á vista da duvida levantada pela agencia do correio nessa cidade.

N. 661—Tendo presente o vosso telegramma de 30 de outubro proximo findo, no qual pedis autorização para effectuar o pagamento dos vencimentos dos funccionarios dessa repartição, ora augmentados por força do decreto n. 1.743, de 3 de outubro citado, declaro-vos em cumprimento do despacho do Sr. Ministro, de 6 do corrente, que tal autorização não póde ser dada, visto não ter applicação ao caso o disposto no art. 51 da lei n. 1.617, de 31 de dezembro ultimo, aguardando o Thesouro, para poder providenciar no sentido do vosso pedido, que a delegacia fiscal nesse Estado faça remessa da demonstração do credito preciso para occorrer ao pagamento de que se trata.

The American BankNote Company,

Dear Sirs,

I have to acknowledge receipt of your favours of Oct. I6 (5), 23(2),28(4),29(5),and 30th.

The specimens of Canadian stamps for Dr. Penna I hav e duly forwarded to him and have also written to him what you said about the pen but have not yet heard whether he got it. The box of stationery by the Tennyson safely reached me but I had to pay very heavy duty on it I am sorry to say. the sample albums I have not yet distributed but when I do I will ,as you request,send you a list of the recipients.

The Waterlow notes are not yet in circulation but it is stated that the 20$ and I0$ notes will be put out this week. as soon as I can send you any of these notes I will do so.

The Minister of Fazenda is now much exercised about getting the 500$ and 200$ milreis notes--especially the latter-- and at his request I cabled you on the 23D,but have not yet your answer.

I am very glad that you have determined to make an exhibit at the Exposition next year and I await your further pleasure in the matter.

I note that you will take up the advertising in the Rio papers and I am more and more convinced that this will be well worth while. The papers in which we advertise will say a good word for us occasionally and thus foster the strong public sentiment that already exists in our favour . On the contrary,if we do not advertise they may do the opposite on occasion. I am sure it is good policy to stand well with them

in this respect.

At the Bank of Brazil they did not like the colour of the Letras a premio but otherwise seem quite well pleased.

There is a custom out here at Christmas to give presents to all kinds of people who do--or are supposed to do--any service for you and whilst the practice is subject to cos-siderable abuse it has to be complied with to a very great extent. Already I have been approached on this matter by several of the messengers at the Treasury and have told them that they might call to get their tip. These are very subordi-nate people of course but they can be and are very useful in many ways. They are permanent and may outlast many ministers and can frequently give me points if I have their good will.

Also ,if the higher officials know that we are liberal to these subordinates,it will increase their own good will towards us. Contrariwise it may produce an opposite effect. So I am going to tip these messengers right liberally and I hope you will approve my action in the matter.

I should also like to have your permission to buy a cabinet in which to keep samples and papers which are the property of the Company. This would cost about 100$ and the cabinet and its contents would,of course, be held as your property and subject to your orders.

Yours very truly,

Caixa de Conversão

De ordem do Sr. director desta repartição, faz-se publico que serão emittidas por esta caixa as notas conversiveis, fabricadas na Inglaterra por Waterlow & Sons, limited, dos valores de 10$, 20$ e 200$, todas da estampa 1ª, serie A, cujos caracteristicos são os seguintes:

Nota de 10$000—*Anverso*—No centro da moldura o distico « Republica dos Estados Unidos do Brazil » e dentro, de um lado e de outro, a serie e a estampa, seguindo-se em grandes caracteres « A Caixa de Conversão » e a declaração «Pagará ao portador á vista no Rio de Janeiro a importancia deste bilhete em ouro amoedado ao cambio de quinze dinheiros por mil réis, valor recebido nos termos da lei n. 1.575, de 6 de dezembro de 1906».

Esta declaração acha-se disposta em duas partes, cujo centro é occupado por um medalhão, com o busto do Sr. Dr. Affonso Penna, Presidente da Republica, e abaixo, na propria moldura, o valor da nota por extenso.

A' esquerda vê-se a figura de Minerva, descançando a mão direita em um escudo e sustentando com a esquerda a haste de uma bandeira; á direita, a estrella das armas da Republica, achando-se um pouco acima a numeração de côr azul escuro, sendo que a mesma numeração está repetida á esquerda junto á figura de Minerva. O valor em algarismos e por extenso occupa todo o fundo da nota em pequenos caracteres. Nos quatro angulos o valor de 10 em algarismos.

Verso—No centro, o novo edificio da Caixa de Amortização, onde funcciona a de Conversão: por cima, em semi-circulo, as palavras «A Caixa de Conversão» e na parte inferior «Republica dos Estados Unidos do Brazil». Nos dous extremos, o valor 10 em algarismos e em plano inferior e por extenso «Dez mil réis». Tanto o anverso como o verso são de côr havana carminada (Magenta).

Nota de 20$000—*Anverso*—A' esquerda, o busto do Sr. Dr. Affonso Penna, Presidente da Republica, e acima, dentro da moldura, a serie e a estampa; á direita, as armas da Republica e abaixo, o novo edificio da Caixa de Amortização, onde funcciona a de Conversão, por cima do qual se acha a numeração em tinta carmezim. Na parte central e na propria moldura, o distico «Republica dos Estados Unidos do Brazil» e abaixo, em grandes caracteres «A Caixa de Conversão», seguindo-se a declaração «Pagará ao portador á vista no Rio de Janeiro a importancia deste bilhete em ouro amoedado ao cambio de quinze dinheiros por mil réis, valor recebido nos termos da lei n. 1.575, de 6 de dezembro de 1906». Logo depois «Vinte mil réis» em fundo azul e, mais abaixo, a repetição da numeração tambem carmezim, vendo-se por trás daquella declaração o numero 20, valor da nota, o qual tambem se acha repetido em menores caracteres nos quatro angulos da moldura e ainda duas vezes na parte superior da mesma moldura.

Verso—No centro, uma locomotiva; na parte superior, o distico «A Caixa de Conversão» e na inferior «Republica dos Estados Unidos do Brazil», á direita e á esquerda o valor 20 em algarismos, achando-se estes cortados pelas palavras «Mil réis», nos quatro angulos «Vinte» por extenso. Tanto o anverso como o verso são de côr azul.

Nota de 200$000—*Anverso*—A' direita, dentro de um medalhão, o busto do Sr. Dr. Affonso Penna, Presidente da Republica, vendo-se acima e abaixo desse medalhão o valor da nota em algarismos; á esquerda, uma mulher (Caryatides) sustentando á cabeça um quadro onde igualmente se vê o valor 200, que tambem se repete na base. Na parte superior, dentro da moldura, o distico «Republica dos Estados Unidos do Brazil» e abaixo «A Caixa de Conversão», seguindo-se a declaração «Pagará ao portador á vista no Rio de Janeiro a importancia deste bilhete em ouro amoedado ao cambio de quinze dinheiros por mil réis, valor recebido nos termos da lei n. 1.575, de 6 de dezembro de 1906». Esta declaração acha-se em duas columnas separadas pelo novo edificio da Caixa de Amortização, onde funcciona a de Conversão, a que se segue, em fundo preto, o valor «Duzentos mil réis» por extenso, achando-se á esquerda a designação da serie. Abaixo as armas da Republica e em seguida a numeração em tinta carmezim e a designação da estampa, e ainda mais abaixo o valor «200 mil réis» em grandes caracteres, estando repetida a numeração na parte superior á direita. O valor por extenso e em algarismos occupa grande parte da nota em typo extremamente pequeno. Este lado é impresso a varias cores.

Verso — Verde escuro; no centro um grupo pastoril; por cima, em semi-circulo, as palavras «A Caixa de Conversão» e na parte inferior, tambem em semi-circulo, «Republica dos Estados Unidos do Brazil»; nos cantos o valor «200» e lateralmente, por extenso, «Duzentos mil réis».

Caixa de Conversão, 12 de novembro de 1907.—*B. de Aguas Claras*.

Caixa de Conversão

De ordem do Sr. director desta repartição, faz-se publico que serão emittidas por esta caixa as notas conversiveis, fabricadas na Inglaterra por Waterlow & Sons, limitted, dos valores de 10$, 20$ e 200$, todas da estampa 1ª, serie A, cujos caracteristicos são os seguintes :

Nota de 10$000—*Anverso*—No centro da moldura o distico « Republica dos Estados Unidos do Brazil » e dentro, de um lado e de outro, a serie e a estampa, seguindo-se em grandes caracteres « A Caixa de Conversão » e a declaração «Pagará ao portador á vista no Rio de Janeiro a importancia deste bilhete em ouro amoedado ao cambio de quinze dinheiros por mil réis, valor recebido nos termos da lei n. 1.575, de 6 de dezembro de 1906».

Esta declaração acha-se disposta em duas partes, cujo centro é occupado por um medalhão, com o busto do Sr. Dr. Affonso Penna, Presidente da Republica, e abaixo, na propria moldura, o valor da nota por extenso.

A' esquerda vê-se a figura de Minerva, descançando a mão direita em um escudo e sustentando com a esquerda a haste de uma bandeira; á direita, [illegible] das armas da Republica, [illegible]-se um pouco acima a numeração de côr azul escuro, sendo que a mesma numeração está repetida á esquerda junto á figura de Minerva. O valor em algarismos e por extenso occupa todo o fundo da nota em pequenos caracteres. Nos quatro angulos o valor de 10 em algarismos.

Verso—No centro, o novo edificio da Caixa de Amortização, onde funcciona a de Conversão ; por cima, em semi-circulo, as palavras «A Caixa de Conversão» e na parte inferior «Republica dos Estados Unidos do Brazil». Nos dous extremos, o valor 10 em algarismos e em plano inferior e por extenso «Dez mil réis». Tanto o anverso como o verso são de côr havana carminada (Magenta).

Nota de 20$000—*Anverso*—A' esquerda, o busto do Sr. Dr. Affonso Penna, Presidente da Republica, e acima, dentro da moldura, a serie e a estampa ; á direita, as armas da Republica e abaixo, o novo edificio da Caixa de Amortização, onde funcciona a de Conversão, por cima do qual se acha a numeração em tinta carmezim. Na parte central e na propria moldura, o distico «Republica dos Estados Unidos do Brazil» e abaixo, em grandes caracteres «A Caixa de Conversão», seguindo-se a declaração «Pagará ao portador á vista no Rio de Janeiro a importancia deste bilhete em ouro amoedado ao cambio de quinze dinheiros por mil réis, valor recebido nos termos da lei n. 1.575, de 6 de dezembro de 1906». Logo depois «Vinte mil réis» em fundo azul e, mais abaixo, a repetição da numeração tambem carmezim, vendo-se por trás daquella declaração o numero 20, valor da nota, o qual tambem se acha repetido em menores caracteres nos quatro angulos da moldura e ainda duas vezes na parte superior da mesma moldura.

Verso—No centro, uma locomotiva; na parte superior o distico «A Caixa de Conversão» e na inferior «Republica dos Estados Unidos do Brazil», á direita e á esquerda o valor 20 em algarismos, achando-se estes cortados pelas palavras «Mil réis»; nos quatro angulos «Vinte» por extenso. Tanto o anverso como o verso são de côr azul.

Nota de 200$000—*Anverso*—A' direita, dentro de um medalhão, o busto do Sr. Dr. Affonso Penna, Presidente da Republica, vendo-se acima e abaixo desse medalhão o valor da nota em algarismos; á esquerda, uma mulher (Caryatides) sustentando á cabeça um quadro onde igualmente se vê o valor 200, que tambem se repete na base. Na parte superior, dentro da moldura, o distico «Republica dos Estados Unidos do Brazil» e abaixo «A Caixa de Conversão», seguindo-se a declaração «Pagará ao portador á vista no Rio de Janeiro a importancia deste bilhete em ouro amoedado ao cambio de quinze dinheiros por mil réis, valor recebido nos termos da lei n. 1.575, de 6 de dezembro de 1906». Esta declaração acha-se em duas columnas separadas pelo novo edificio da Caixa de Amortização, onde funcciona a de Conversão, a que se segue, em fundo preto, o valor «Duzentos mil réis» por extenso, achando-se á esquerda a designação da serie. Abaixo as armas da Republica e em seguida a numeração em tinta carmezim e a designação da estampa, e ainda mais abaixo o valor «200 mil réis» em grandes caracteres, estando repetida a numeração na parte superior á direita. O valor por extenso e em algarismos occupa grande parte da nota em typo extremamente pequeno. Este lado é impresso a varias cores.

Verso — Verde escuro ; no centro um grupo pastoril, por cima, em semi-circulo, as palavras «A Caixa de Conversão» e na parte inferior, tambem em semi-circulo, «Republica dos Estados Unidos do Brazil»; nos cantos o valor «200» e lateralmente, por extenso, «Duzentos mil réis».—O secretario, *B. de Aguas Claras*.

Per BYron. Rio, Dec. 4, 1907.

The American Bank Note Company,

Dear Sirs,

Since my last respects as per enclosed copies I have none of your favours to refer to .

In the accounts which I am sending you by this mail you will notice that I have included the cost of the conversion notes (Waterlow) which you instructed me to get . So far there are very few of these notes in circulation and I am only able to send you the 20$ note herewith. The others I hope to send you by the following steamer.

From the accounts you will see that I had to pay exorbitantly in the custom house for the duty &C. on the box you sent me. I hope ,for this reason, that you have adhered to your purpose of mailing the calendars.

Dr. Penna writes me that he received the pen that had been sent and that he was writing to Mr. Claudet about it.

He asks me for samples of labels and bands to go on bolts of cotton cloth with the prices of each specimen attached as an English company is establishing a mill in Bello Horizonte and he hopes to do some business with them.

In cabling to me please understand with the cable company not to send my cables via Galveston as such telegrams are sent down the west coast ,across to Buenos Aires and thence up to Rio by the Brazil Govt. land line and the service is slow and poor. It could not well be otherwise with so many transmissions. Yours very truly,

C. Irvine

Dear Sir,-

Your letter of December 4th is received, enclosing statement of accounts and newspaper clippings.

WATERLOW NOTE We are also in receipt of the 20 Mil Reis Note of Waterlow's manufacture, and understand that you will send us the other denominations shortly, the total cost of which you have included in your statement of accounts.

TELEGRAMS We note also what you say with regard to sending your telegrams via Galveston, but would point out that there appear to be only two ways of transmission - one via Galveston, the other by way of London at the rate we pay - namely, $1.00 per word. We will in future send them via London, so that they may reach you more quickly.

SAMPLES OF LABELS AND BANDS This matter is having our attention, and we will write you again on this subject.

Yours respectfully,

Dear Sirs,

Your favour of Nov. 6th. is safely to hand and I now confirm cables exchanged since my last respects. As Dr. Penna is one of the Commissioners for the Exhibition I am trying to make the necessary arrangements for the space through him. There is no doubt that everything will be satisfactory.

I enclose you one of the Conversion notes of 10$. The 20$ note I sent you before. None of the others are out yet although I believe the Government has received them.

The Prefeito asked me to be sure to have the municipal stamps shipped in time so I cabled you. He considers that the 10 weeks for the execution of the order date from the time his acceptance of the bid was placed in my hands and this is also what I consider right and proper, inasmuch as all details were already in your hands. The wording of your letter of Oct. 28, however, seems to indicate that you are counting from the date you received the official order. By my count these stamps ought to have been shipped by Dec. 14th. I hope there is no misunderstanding, as the Prefeito is very exacting in matters of contract, and can be very obdurate on occasion.

Yours very truly,

BANDS FOR BOLTS OF COTTON

Jan. 17, 1908.

In reference to a letter of December 4th on the above subject, we are send you, under separate cover in registered package, specimen of band which is about the usual size used for bolts of cotton.

In regard to price, we cannot give you the same until we are furnished with the size, quantity, and the number of colors that these bands are to be printed in. If you can get Dr. Penna to inquire from the English concern who are putting up the mill at Bello Horizonte, regarding the above details, we shall then be in a position to give you an exact estimate.

Please bear in mind that on all new orders outside of government work, you must see that we are secured as to payments. Our custom is, when we receive orders from new customers, to re - quire payments as follows: one third on the signing of the con - tract; one third on presentation of the model; and balance when ready to ship. Or, which is still better bet complete payment in advance.

Dear Sirs,

I have to thank you for your five favours of Dec. 4th with enclosures, as stated.

I am very sorry for my error in sending you a paper which should have gone to La Cia. Molinera Anglo-Argentina and I thank you very much for the copies of your correspondence with the Warner & Swasey Company. It was not my intention to refer these gentlemen to you, as I had never asked your permission to do that. In applying for their agency I mentioned what I was doing, merely to show them what touch I have with Government work, intending to give them my references if they felt inclined to take up the business with me. So I pray you will pardon what may have seemed a breach of coutesy on my part.

I went to the Bank of Brazil again about the "Letras a premio". They seem better satisfied about the colour than at first and I think the slight dissatisfaction on this point was only Mr. Mesquita's opinion. He is an old gentlemen and, I think, a little defective in his eyesight for that reason. So we may consider the order as having been satisfactorily executed.

I am without any word from Dr. Penna about the paper and the Exposition space.

As the Minas stamps ought to arrive in a few days now I think they will be quite content with the execution of the order.

The Treasury has not yet given me the written confirmation of the second million 10$ notes and I have not pressed for it as their telegrams and conversations with me make the order safe enough and I have been afraid I might tempt them to countermand the order if I said too much.

I have received your letter of Dec. 6. 10 (3), 11th (4), 13th, 20th (5), 23d (2), 31st (2) and Jany. 4th. all of which are having my careful attention. Cables via London reach me very promptly indeed. The other day I cabled you at about 9 o'clock in the morning and had your reply before 4 o'clock the same day. This is very satisfactory work.

Dr. Penna, for whom I have been waiting, ought to arrive from Bello Horizonte today and I will at once take up the Exposition business with him.

The calendars have reached me safely and I shall not require any more.

The Post Office is now satisfied about ordinary stamps but there will be a big rush about the Exposition work and I anxiously await the models. There is nothing new about the municipal bonds and it does not look as though they can place a loan just now. The Agricultural Bank does not seem to be anything more than a <u>project</u> as yet.

As I wrote you in my last, I have gotten rather behind with some matters of business, but I hope to catch up with everything in a few days.

I will attend to the collection of the bill against the city for the stamps as soon as possible. They suffered considerable delay in getting them out of the steamer and Custom House, so I have thought it best not to be in too big a hurry with the account.

The procuration for me to receive money, etc. etc. came duly to hand.

T he Documents for the Minas stamps were duly received, as were the photographs and pictures for the engraving of the same, all of which I handed over to Dr. Penna. The samples of the Minas stamps are very pretty and the binding is all that could be desired. I have given some of these to Dr. Penna and am holding the rest, at his request, until he asks for them.

Dr. Penna has not yet been able to close the business for the stamped paper, but there seems to be very little doubt that we shall eventually get the order.

The bands for the cotton bolts does not look a very hopeful business right at the moment, but we will keep it in view.

I have been trying to get some more revenue stamps orders from the Treasury but there is not much chance there just now. There will be a little left on their appropriation after paying for the match stamps and I am trying to get some data to work from for hat and shoe stamps. I think if the Minister had his way he would reduce the Casa da Moeda to coining silver and nickel, giving all the stamp business and notes, too, to us, but he has to consider native susceptibilities and political exigencies. Anything taken from a national -- and Government -- institution to be given to a foreign company causes heart-burnings and no man in this country can be strong enough to stand up against this altogether. So we must get what they can give us and be thankful.

Yours very truly,

The American Bank Note Company,

Dear Sirs,

Having occasion of making a remittance to pay my life insurance premiums, I have taken the liberty of making up your account to date and drawing on you for the amount of same, $54.$\frac{71}{100}$, as per statement herewith, to the order of Messrs. RIO DE JANEIRO

March 18, 1908

We duly received your favors of February 10th, 11th, 14th, 15th (3) and 17th.

We regret to learn that there was considerable delay in getting the Minas Stamps out of the Custom House; and we are pleased that the specimens sent you in book form for Dr. Penna, duly arrived and were entirely satisfactory, and we trust that this will be the means of bringing some new business from other States.

We note what you say with reference to the Stamped Paper for the State of Minas, and that you think there is no doubt as to the order for same being placed with us very shortly.

In reference to the Bands for the Cotton Bolts, what we sent you is all we had in the way of specimens; and if any business could be had in that line, we would suggest the best way would be to simply give us the size and text, and we will get up a special design for approval, together with prices.

Yours respectfully,

Manager of Foreign Sales

Dear Sirs,

Enclosed I beg to hand you copies of cables exchanged and I have to acknowledge receipt of your favours of Jany. 21, 23. 24 (2), 28, 29 & Feby.5.

Advertising. I have closed contracts with the Brazilian Review and Noticia and have verbally concluded arrangements with the Jornal do Commercio. As soon as they confirm by letter I will send you a special report on this subject. I have encountered the most extraordinary delays.

Consumption stamps. I have hot yet been able to get all the shoe stamps, but will send them on as soon as I can.

The Minister promises me the order for the third million 10$ notes after Carnival - say in four or five days - and I will, of course, cable you as soon as I have it. They are not yet ready to ~~re~~ order the 5$ notes, but that will come a little later on, without doubt.

I have not been able to elicit anything further about plans for establishing a manufacturing plant out here. Probably most of the suggestions and initiative will have to come from us and I therefore ask you to prepare such plans as you think suit-

able so that we can have a basis for negotiations. If we could work here we could do a great deal of commercial busines which might be made to yield a nice profit. Consequently I think any proposals ought to be made very inviting to the BrazilianGovernment as regards public business, such as bank-notes, postae & consumption stamps. If we could get all this business it would assure plenty of work at a fair profit and the other field would show great development with the growth of the country. If Mr. Claudet can come out in June with some well defined ideas we can push things and maybe get everything fixed - if not right away- by the end of the year. It need not, of course, be necessary for him to stay all that time.

The match stamps were very satisfactory and also the promptitude with which the order was filled.

At the Bank of Brazil they are apparently in no hurry to do anything about the stock certificates. They merely tell me that nothing is possible just yet.

The "Equitativa" people cannot yet give an answer ~~from~~ about the calendars as they are waiting for an answer from the Custom House about the duty it will be necessary to pay. As it stands at present they are told that the duty will be 7$000 per kilo. This will be prohibitive, but they are hoping to have the classification changed. They are very nice and apparently business-like and seem very well disposed towards us.

Yours very truly,

L. C. Irvine

Dear Sirs,

As this steamer is leaving earlier than had been advertised I am unable to write you fully about all matters.

At the Treasury they have been promising me every day the order for the third million 10$ notes but I am still without it.

Dr. Penna was here for a few days but before I could get him down to business he was called away by a telegram from Bello Horizonte owing to the illness of a son. As soon as he comes back I will try to get everything in shape.

Yours truly J. C. Irvine

The

American Bank Note Company,

Dear Sirs,

I have to acknowledge receipt of your several favours of Feby. 11 (4), 14 (4), 18, 19 (2) 25, March 3 (3) & March 4. The documents sent for the State of Minas were duly delivered to Dr. Penna. Since he left for Bello Horizonte where he had been called by the illness of a son I have not received any word from him. I want him here for several things, notably the Exposition Diplomas. The stamped paper for Minas has not yet been decided, but Dr. Penna considered it a forgone conclusion that we shall get the order all right.

Our order with the Equitativa for the calendars has fallen through, entirely due to the action of the Custom House in insisting upon strict classification lately on this class of stuff -- Rs 7$000 per kilogramme, which is absolutely prohibitive. I hope that we shall be more fortunate with the policies and I believe we shall. Talking of calendars reminds me that they told me at the Post Office that they did not receive any calendars this year as they always have done. Fortunately I had enough left to supply them. I understood that you had mailed to them from the list I sent you. Of course you must bear in mind hereafter not to send any calendars through the Custom House. The

Post Office has its dangers but most of those to whom you mail calendars will get them all right.

The Banco do Brazil stock certificates and the Municipal bonds do not look at all probable just at the moment.

There is an occasional rumour of the Agricultural Bank being started but it always proves to be only a rumour. If anything is undertaken seriously it will probably be worked in London and any real news concering it might very possibly be known there before it is public here. But I do not think the scheme can be financed at this special time. I have not forgotten our account against the city for the stamps, but these things take sometime and the City Government is not particularly well-supplied with funds just now. However it is all right and will be attended to in time.

At the Post Office I have not said anything yet, but will do so soon. I did not care to say anything until pur postal card orders were settled. At the Treasury our account for match stamps has been challenged on the ground that the same is not in accordance with our contract. These stamps were sold at 15 cents including Boxing, Insurance and freight to Rio as per your letter of Sept. 20th and I so stated the same in my letter to the Minister as per copy sent you at the time. In your accounts you have been adding these charges and I shall probably have to cable you to this effect so that no further confusion may ensue. This matter has delayed the payments.

The Minister has not yet given the order for the 3d million of 10$ notes but it will come at any moment and a little later the order for the second million 5$-. These matters always call for plenty of time and patience. The Treasury is now fairly well supplied with notes for its pressing requirements and so they are inclined to go easy on the whole business.

The chief of section of the department where the new notes are distributed to the public called my attention to the fact that one of the new 200$ notes (no. 81881) came to hand torn (apparently having been cut or pulled apart by getting caught in some of the machinery). One part of the note was found in its proper place according to number and the other part was found next to note # 82881. It is a small matter but it is just as well to mention it so as to caution your workmen against any possible carelessness.

Yours very truly,

K. Lyon
